Skills in Computers plus having my Food Safe and CPR Certifications

WORK EXPERIENCE

Team Leader

02/2015 to Present

Target

T2055 - Hattiesbug MS

I've been a leader at target for a little over 7 years. I managed multiple different teams in my time as a leader. I've been over the fulfillment team (online digital sales) which has grown exponentially since it has started. I was also over our General Merchandise team. My latest assignment has been the Team Lead over Food and Beverage.

In my duties as Team Leader, i have to make sure that my team stays on task. I prioritize what they do on a regular basis. I have to plan out where different planograms go as well as making sure they get set on time. I am over price changes for my particular section in Food and Beverage, so that we are accurate with our prices for our guest. I am responsible for making sure that we are food safe, and fresh and clean in our fresh areas. this means making sure that any product that comes off of our food trucks are in temp, and making sure that we are doing our do diligence to making sure that the products on the floor are in date and not going bad.

Team Member

07/2011 to 12/2014

Kmart

Mauldin, Sc

I was a Kmart team member and specialized in electronics and layaway. I learned how to interact with customers, sometimes needing to deescalate situations that got out of hand. General truck unload and other organization pieces with new sets and backstocking also came into play at Kmart.

SKILLS

Computer skills - 10+ years

CPR Certified - 1 year
